A comprehensive portfolio of products designed to empower communication and independence.
The I-13 and I-16 enable effective communication in all forms – from voice output to computer access. The devices have a light and thin yet rugged design, lightning fast performance, speakers optimized for speech, Gorilla Glass with a matte finish, and can be controlled through eye gaze via the #1 eye tracker in the world with outdoor eye tracking, the IS5TD (optional).

Communicator 5

A more efficient way to communicate
Communicator 5 is a comprehensive AAC software that provides a voice and independence to those in need of communication solutions. It offers ready-made communication pages, on-screen keyboards, intuitive tools, and so much more!

Text communication
Benefits for literate users include the frequency-based word prediction, built-in grammar functions, word conjugation and access to Windows desktop and applications.

Symbol communication
Communicator lets users who cannot read or write use communication symbols or other pictures to support their interactions.

Access and environment controls
Communicator 5 gives you control over the Windows environment. You can also use infrared light (IR) transceivers to control your TV, DVD player, and games.

Communicator 5 Accessible Apps
Currently only available on I-13 and I-16 devices, Communicator 5 Accessible Apps provide you with the opportunity to engage, experience, and enjoy the world’s most popular apps. They work by linking to Communicator 5 and providing a more natural and intuitive way to access apps such as Facebook, Instagram, and more.
Harness the power of myTobiiDynavox.com

Choose TD Snap and Communicator 5 to start harnessing the power of myTobiiDynavox — your personal website for managing and backing up your communication tools, connecting with your entire communication support team, and sharing communication pages.

Upload, store, share, manage and learn...

With myTobiiDynavox, you can also...

- Download additional pagesets and voices
- Purchase apps and software
- And, so much more!

AccessIT® 3

Complete homework, finish work assignments, or even just surf the web — all on your own — with AccessIT 3. AccessIT 3 is a small USB accessory that plugs into a Windows computer for complete control via TD Snap software. It is compatible with any selection or access method such as eye gaze or scanning. Visit tobiidynavox.com to learn more.

Previous versions of the AccessIT accessory are not compatible with TD Snap. Additionally, AccessIT 3 will not work with older software titles that supported the accessory.

Boardmaker provides a spectrum of products and tools that advance literacy, accessibility and communication, giving your students with special education needs, the power to achieve. Explore our robust Boardmaker 7 software, powered by our globally recognized Picture Communication Symbols® and curriculum.

Discover Boardmaker at goboardmaker.com
